# INTERNATIONAL STUDIES OFFICE

## GREETINGS!

As the excitement of the new semester is upon us we wanted to reach out to offer you some resources and information to share with your students who may be considering an education abroad experience.

Our office is here to work with you to guide students on their way to a meaningful and successful international experience while at UVA.

## OUR WEBSITE

The **Education Abroad website** has a wealth of information and resources for both you and your students. There, they can research programs, explore funding opportunities, and learn the steps to follow in order to study abroad. You can also find information about **advising students** and how YOU could run a study abroad program!

## MAJOR & MINOR ADVISING

The **Education Abroad in your Major or Minor** page features programs that departments feel are good fits for their students. This is a great starting point for students. We are happy to work with you to identify programs you want to feature for your majors and minors.

## EDUCATION ABROAD ADVISORS
